The Structural Engineer

JOURNAL OF THE INSTITUTION OF STRUCTURAL ENGINEERS

INDEX: Volume 63A Monthly 1985

A

Accounting and costing: Engineers, economists, and the marketplace
Maitland Lecture 7
—*Verulam* 127
Adhamiyah Bridge, Baghdad —Discussion 88
Aggregates: Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Aiken, A.: Mostly micros —*Verulam* 58
Al-Bayah, I.I.: See Lee, D.J., A. Wallace and I.I. Al-Bayah
Allen, P. H.: Design of steel beams —*Verulam* 292
Aluminium: Symposium on the structural use of aluminium —Opening Address 351
Aqueducts: Design and construction of Stanley Ferry Aqueduct —Discussion 155
Arches: Use and misuse of Fuller's construction for the analysis of masonry arches 352
Arshad, M.: Nominal design life —Viewpoint correspondence 254
Associate-Membership Review Committee report 117
—Discussion 356
—The structural technical engineer in the '80s 388
Award for Industrial Innovation and Production —*Note* 368
Awards: See Honours and awards; Scholarships and bursaries

B

Baghdad: Adhamiyah Bridge —Discussion 88
Bailey, Sir Donald —Obituary 169
Baird, J.A.: Wind loading on roofs —*Verulam* 361
Lord Baker of Windrush —Obituary 305
Banks: Structure of the new headquarters for the Hongkong & Shanghai Banking Corporation, Hong Kong 255
Barrier gates: Design and model testing of the Thames Barrier gates —Discussion 122
Beal, A.N.: The masonry code—CP 111 and BS 5628 —*Verulam* 390
Beal, Raymond —Obituary 305
Beams: Lateral forces due to longitudinal prestressing of concrete box spine-beam bridges with inclined webs 54
—Corrigenda 131, 168
The timber trussed girder 147
Joint action and the design of steel frames 371
Design of steel beams —*Verulam* 189, 292, 360
Beck, J.K.: Craftsmanship in masonry construction and the designer —*Verulam* 126
Beeby, A.W.: Why not *WL*/8? —Viewpoint 3
—Viewpoint correspondence 67, 107, 154
Bhatt, R.H.: Shortcuts to CP 110 —*Verulam* 160
Biggs, R.: Statutory control of construction —Viewpoint correspondence 35
Bogle, Brian —Obituary 251
Book reviews:
Analysis and design of bridges: ed. Cetin Yilmaz and S. Tanvir Wasti 379
Analysis, design and construction of braced domes: ed. Z.S. Makowski 85
Basic computational techniques for engineers: R.A. Adey and C.A. Brebbia 162
Basic computing for civil engineers: W.M. Jenkins, J.M. Colthard and G.C. de Jesus 158
Bibliographical index. Building and constructional engineering. Vol. 3. Structures and materials: comp. Terence M. Russell 96
Buckling of offshore structures: C.P. Ellinois, W.J. Supple and A.C. Walker 27
Building control by legislation: the UK experience: J.H. Garnham Wright 121
Closing the gaps in project management systems: Systems Group Working Party, Association of Project Managers 331
Composite structures: Technical General Secretariat, European Convention for Constructional Steelwork 308
Concrete bridge design to BS 5400: L.A. Clark 27
Concrete masonry designer's handbook: J.J. Roberts, A.K. Tovey, W.B. Cranston and A.W. Beeby 60
Construction with hollow steel sections, English version: British Steel Corporation Tubes Division 379
Data and formulae for engineering students, 3rd ed: comp. J.C. Anderson, D.M. Hum, B.G. Neal and J.H. Whitelaw 27
Design in offshore structures 85
Developments in thin walled structures—2: ed. J. Rhodes and A.C. Walker 237
Economics for the construction industry: R.C. Shutt 308
Engineering structures. Developments in the 20th century. A collection of essays to mark the 80th birthday of Sir Alfred Pugsley: ed. P.S. Bulson, J.B. Caldwell and R.T. Severn 27
Falsework: a handbook of design and practice: A.W. Irwin and W.I. Sibbald 27
Fatigue and fracture in steel bridges. Case studies: John W. Fisher 178
First course in fluid dynamics: A.R. Paterson 168
Galvanised steel sheet modern material: Belgian-Luxemburg Steel Information Centre (CBLIA) 359
Geometry of spatial forms: analysis, synthesis, concept formulation and space vision for CAD: Peter C. Gasson 379
Geotechnics 4. Checkbook: Roy Whitlow 32
GRP and building. A design guide for architects and engineers: Alex Leggatt and G. Pinfold 178
Introduction to the theory of thin walled structures: N.W. Murray 284
Land drainage responsibilities. A practical code for engineers: IMunE 168
Linear analysis of frameworks: T.R. Graves-Smith 331
Marine biodeterioration: an interdisciplinary study: ed. J.D. Costlow and R.C. Tipper 379
Materials for construction, 2nd ed.: Geoffrey D. Taylor 284
NDT 83: ed. H.W. Whittington, B.H.V. Topping and M.C. Forde 351
Offshore engineering: ed. F.L.L.B. Carneiro, A.J. Farrante and R.C. Batista 308
Optimum design of metal structures: József Farkas; trans. ed. M.N. Pavlović 76
Piling and ground treatment 359
Principles of radiation shielding: Arthur B. Chilton, J. Kenneth Shultis and Richard E. Faw 308
Probability concepts in engineering planning and design. Vol. 2. Decision, risk and reliability: Alfredo H.-S. Ang and Wilson H. Tang 27

Quality management standard for civil works: comp. Motor Columbus Consulting Engineers, Switzerland, Spie Batignolles, and Socotec, France 284
Reliability theory and its application to structural and soil mechanics: ed. P. Thoft-Christensen 104
Shell and spatial structures engineering: ed. F.L.L.B. Carneiro, A.J. Ferrante, R.C. Batista and R. Lopez Palanco 361
Site engineering practice: Philip A. Rougier 121
Structural design of cable suspended roofs: J. Szabó and L. Kollár; trans. ed. M.N. Pavlović 96
Structural failure, product liability and technical insurance: ed. H.P. Rossmanith and others 237
Structure and performance of cements: ed. P. Barnes 162
Understanding buildings: Esmond Reid 237
Understanding structural analysis: David Brohn 351
Wind engineering 1983: ed. J.D. Holmes, P.S. Jackson and W.H. Melbourne. 3 Vols. 363
Bratchell, G.E.: Nominal design life —Viewpoint 199
Brickwork:
The remarkable structures of Paul Cottancin 201
Craftsmanship in masonry and the designer —*Verulam* 22, 126, 333
Brick cladding for steel frames —*Verulam* 189
The masonry code—CP 111 and BS 5628 —*Verulam* 390
Bridges:
Tower Bridge —Colloquium 39
Lateral forces due to longitudinal prestressing of concrete box spine-beam bridges with inclined webs 54
—Corrigenda 131, 168
The design of Kylesku Bridge 69
Adhamiyah Bridge, Baghdad —Discussion 88
P1/P2 Interchange, Hong Kong 318
BSI and Codes of Practice 314
Brohn, D.: Computers and the training of young engineers —*Verulam* 246
Buckling:
Soil buckling and the leaning instability of tall structures 77
—Correspondence 380
Dynamic stability of unrestrained piles during driving 173
Building and buildings:
The Granary site—design and construction of a mechanised letter-sorting office 109
The timber trussed girder 147
The remarkable structures of Paul Cottancin 201
Sherborne House, Cannon Street, London EC4 —Discussion 216
Structure of the new headquarters for the Hongkong & Shanghai Banking Corporation, Hong Kong 255
Solid-waste transfer stations in the Greater London area 285
Building regulations:
Statutory control of construction —Viewpoint correspondence 35, 67, 154
New building regulations 334
Approved persons and approved inspectors 134
Building construction research —*Note* 169
Building regulations —*Note* 228
Butler, A.J.: See Eden, J.F., A.J. Butler and J. Patient

C

Caissons: Soil buckling and the leaning instability of tall structures —Correspondence 380
Cassie, William Fisher —Obituary 169
Cements:
Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Selection of materials —Viewpoint 107
—Viewpoint correspondence 141, 171
Chapman, F.N.: Craftsmanship in masonry and the designer —*Verulam* 22, 333
Checking and appraisals: Guidance Note No. 2 130
Chipboard:
Selection of materials —Viewpoint 107
—Viewpoint correspondence 141
Churches:
The remarkable structures of Paul Cottancin 201
The crossing piers of the French Panthéon 230
—*Verulam* 360
Cladding:
Selection of materials —Viewpoint 107
The Granary site—design and construction of a mechanised letter-sorting office 109
Brick cladding for steel frames —*Verulam* 189
Clancy, B.: The engineer and his status in society —Viewpoint 141
Clark, P.J.: See Tappin, R.G.R., P.J. Dowling and P.J. Clark
Clarke, J.L. and C.D. Pomeroy: Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Coats of Arms —*Verulam* 24
Codes of Practice:
Structural codes—today and tomorrow —Colloquium 309
—BS 8110: Structural use of concrete 309
—BS 5950: Structural use of steelwork in building 309
—BS 5628: Structural use of masonry 311
—BS 5268: Structural use of timber 313
—BSI and codes of practice 314
—The Institution's role 316
—EuroCodes 317
P1/P2 Interchange, Hong Kong 318
New approach to the calculation of wind forces on vertical and horizontal latticed structures —Correspondence 384
Verulam 23, 128, 159, 221, 360, 390
See also Standards and Codes
Columns:
Soil buckling and the leaning instability of tall structures 77
—Correspondence 380
Joint action and the design of steel frames 371
Composite construction:
Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Computers:
Computer graphics in structural engineering —Colloquium 13
—Computers create more paper—graphics can reduce it 13
—Computer graphics and reinforced concrete detailing 15
—GIPSYS—a CAD system developed by a user 17
—Computer graphics related to an in-house drafting system 20
Verulam 58, 94, 126, 161, 190, 221, 245, 292, 332, 391
Concrete:
Computer graphics and reinforced concrete detailing 15
GIPSYS—a CAD system developed by a user 17
Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Lateral forces due to longitudinal prestressing of concrete box spine-beam bridges with inclined webs 54
—Corrigenda 131, 168
The design of Kylesku Bridge 69
The Granary site—design and construction of a mechanised letter-sorting office 109
An undergraduate training project—construction of a reinforced concrete grandstand 143
Design and construction of Stanley Ferry Aqueduct —Discussion 155
The remarkable structures of Paul Cottancin 201
BS 8110: Structural use of concrete 309
P1/P2 Interchange, Hong Kong 318
Design of structural concrete —*Verulam* 360
Concrete Society awards 1985 —*Note* 198
Conditions of engagement for the project team 366
Conduct: Rules of conduct 129
—*Note* 2
Construction:
Statutory control of construction —Viewpoint correspondence 35, 67, 154
The design of Kylesku Bridge 69

The Granary site—design and construction of a mechanised letter-sorting office 109
An undergraduate training project—construction of a reinforced concrete grandstand 143
Design and construction of Stanley Ferry Aqueduct —Discussion 155
Dynamic stability of unrestrained piles during driving 173
Sherborne House, Cannon Street, London EC4 —Discussion 216
Fenchurch Street Station development —Discussion 235
The structure of the new headquarters for the Hongkong & Shanghai Banking Corporation, Hong Kong 255
P1/P2 Interchange, Hong Kong 318
Contracts: Solid-waste transfer stations in the Greater London area 285
Core structures:
Analysis and design of shear wall structures 208
Corrosion protection: The structure of the new headquarters for the Hongkong & Shanghai Banking Corporation, Hong Kong 255
Cottancin, Paul: The remarkable structures of Paul Cottancin . 201
Cox, D.: Why not *WL/8*? —Viewpoint correspondence 67
Cox, R.W.: Study Group award 306
CPD in Construction Group —*Note* 368
Craftsmanship in masonry and the designer —*Verulam* 22, 126, 333
Cranes: A new approach to the calculation of wind forces on vertical and horizontal latticed structures 179
—Correspondence 384
Crossing piers of the French Panthéon 230
—*Verulam* 360
Cugley, R.C., B. Kennedy and R.E. Melchers: Dynamic stability of unrestrained piles during driving 173

D

Danglidis, M.I.: See Spiller, R.M., R.E. Kromolicki and M.I. Danglidis
Dawes, M.H. and D.T. Yeomans: The timber trussed girder ... 147
Decks, concrete:
Lateral forced due to longitudinal prestresing of concrete box spine-beam bridges with inclined webs 54
—Corrigenda 131, 168
Design of Kylesku Bridge 69
Adhamiyah Bridge, Baghdad —Discussion 88
Delaney, J.D.: Imposed loading on roofs and wind loads —*Verulam* 333
Design, structural:
Why not *WL/8*? —Viewpoint 3
—Correspondence 67, 107, 154
Concrete opportunities for the structural engineer (a review of modified concretes for use in structures) 45
—Discussion 327
Design of Kylesku Bridge 69
The Granary site—design and construction of a mechanised letter-sorting office 109
Design and model testing of the Thames Barrier gates —Discussion 122
Design and construction of Stanley Ferry Aqueduct —Discussion 155
Nominal design life —Viewpoint 199
